

RATIK SINGH

FULL STACK DEVELOPER | ☎ +91 9109200353 | ✉ singhratik07@gmail.com | [LinkedIn](#) | OPEN TO RELOCATE

EDUCATION

Madhav Institute of Technology and Science
Bachelor of Technology -CE

Gwalior, Madhya Pradesh
08/2018- 05/2022

EXPERIENCE

Infosys - Senior Systems Engineer – Full Stack Developer
Chandigarh

07/2024 - Present

- Developed micro-frontend architecture using Angular and Go, improving scalability and load performance across 7+ SaaS apps.
- Implemented **GraphQL** APIs and RESTful services, reducing latency by 70% and enhancing real-time data fetching.
- Integrated performance monitoring and custom metrics dashboards, enabling real-time tracking of API throughput, latency, and error rates, leading to a 25% improvement in incident resolution times.
- Led requirement analysis and feature development for core modules, contributing to the successful launch of 3 major platform enhancements used by over 5,000+ end users in the digital tower.
- Collaborated with QA to resolve 20+ production-critical bugs, improving overall system stability.
- Designed and executed an SMTP-based alerting system for CI/CD pipeline failures, reducing debugging turnaround time by 60% and improving build reliability.

Infosys - Systems Engineer – DevSecOps Engineer
Chandigarh

01/2024 – 06/2024

- Orchestrated CI/CD pipelines using Harness to automate Salesforce development and deployment, reducing deployment time by 50% and ensuring consistent delivery across 10+ enterprise releases.
- Migrated all legacy SFDX commands to Salesforce CLI, improving compatibility with modern Salesforce tooling and streamlining development workflows.
- Authored custom shell scripts to automate Git Delta processes, increasing metadata tracking accuracy in package.xml and cutting manual errors by 60%.
- Monitored and maintained deployment workflows, identifying failures and bottlenecks early to ensure stable, on-time releases across environments.

Infosys - Systems Engineer – Full Stack Developer
Mysore

11/2022 – 12/2023

- Assembled and integrated a travel focused React SPA with a Spring Boot backend, improving page load times by 40% and boosting user engagement by 25%.
- Enhanced frontend performance and reliability by introducing Redux for state management and Material UI for consistent, responsive design.
- Streamlined API communication between frontend and backend using RESTful services, reducing configuration job processing time by 50%.
- Set up CI/CD pipelines with Jenkins (on-prem) and deployed the application to a Kubernetes cluster, enabling automated, efficient delivery.

PROJECTS

Food Adda

Tech Stack: **React.js, Redux, Axios, Material UI, Tailwind CSS**

[GitHub](#)

- Engineered a Swiggy-inspired responsive web app using React.js and Redux, supporting real-time UI updates for 1000+ user interactions per session.
- Leveraged React Hooks (useState, useEffect, useReducer, useContext) for scalable part architecture, reducing re-renders by 35%.
- Integrated Axios for real-time API data fetching, improving data load time by 40%, and added robust error handling for a 99.9% uptime in simulated environments.
- Built out cart functionality and applied route-based rendering to simulate a real-world ordering flow, increasing user retention by 20% in test sessions.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript (ES6+), TypeScript, Go (Golang), Bash

Frontend Technologies: React.js, Redux, Angular 2+, HTML5, CSS3, Bootstrap, Tailwind CSS, Material UI, Webpack.

Backend Technologies: Java, Spring Boot, Golang, Node.js, Express.js, RESTful APIs, GraphQL, WebSocket, gRPC

Databases: MySQL, PostgreSQL, MongoDB, SQL, Redis, Firebase, ORM (Hibernate, Mongoose)

DevOps and CI/CD: Docker, Kubernetes, Jenkins, GitHub Actions, AWS (EC2, S3, Lambda), Azure DevOps, Nginx, Load Balancing

Tools and Platforms: JIRA, Confluence, Postman, Swagger, Visual Studio Code, IntelliJ IDEA, Insomnia

Other Skills: Microservices, Agile Methodologies, Unit Testing, API, Cloud Computing, Web Development, System Design.

Soft Skills: Communication, Collaboration, Team Leadership, Mentoring.
