WORK EXPERIENCE

INFOSYS: System Engineer - Full Stack Developer

July 2024 – Present

- **Micro-frontend Development:** Designed and implemented micro-frontend architectures using Angular Js and Go, optimizing data retrieval for customized client personas.
- **Data Architecture Optimization:** Collaborated with engineering and analytics teams to refine data architecture, reducing data redundancy by 30% and enhancing data access for overall internal users, leading to improved efficiency in analytics and reporting.
- **Developed Features:** Built custom metrics features with Go, optimized API calls using **GraphQL**, and enhanced **REST API** efficiency through dashboard policies.

INFOSYS: System Engineer - DevSecOps Engineer

Aug 2023 – June 2024

- **Salesforce Automation:** Automated Salesforce development and deployment by implementing a CI/CD pipeline with Harness, reducing deployment time by 50% and ensuring consistent delivery across 10+ releases.
- **Legacy to Modern Tool Migration:** Transitioned from legacy tools to Salesforce CLI, successfully migrating 100% of existing SFDX commands to SF commands, enhancing compatibility with the latest Salesforce features and tools.
- **Custom Git Delta for Salesforce DX:** Developed shell scripts to automate Git Delta creation tailored to Salesforce DX Metadata Gathering, improving code change tracking accuracy in package.xml by 60%, reducing manual errors.

INFOSYS: System Engineer - Full Stack Developer

Nov 2022 – Nov 2023

- **Single-Page Application Development:** Created a responsive, single-page application using React js.
- **API Development:** Designed and implemented RESTful APIs for configuration jobs, facilitating seamless communication between the front-end and Java back-end using HTTP protocols.
- **Full-Stack Development:** Demonstrated full-stack capabilities by executing CRUD operations with Java Spring Boot, optimizing backend development, and ensuring efficient data management.
- **UI/UX Optimization:** Enhanced UI/UX by employing Bootstrap and custom CSS for responsive design, ensuring consistent visual experiences across all devices and boosting mobile traffic by 25%.

PROJECTS

Personal Portfolio:

- Developed a personal portfolio website using **React** to showcase projects, skills, and professional experience. Integrated dynamic components and optimized for performance and responsiveness.

EDUCATION

B.Tech in CE

MITS University, Gwalior, India | Aug 2018 – June 2022 | CGPA: 7.2

XII, CBSE

April 2016 – June 2018 | Percentage: 70%

SKILLS

Programming Languages: Java, JavaScript, TypeScript, Go, SQL

Frontend Technologies: Angular, React.js, Redux, HTML5, CSS3, SASS, Bootstrap

Backend Technologies: Node.js, Express.js, Java Spring Boot, GoLang

Databases: MongoDB, SQL, Firebase, MySQL, PostgreSQL

DevOps and CI/CD: Docker, Kubernetes, Jenkins, Harness CI/CD, Git, GitHub, GitLab, GitOps

Tools and Platforms: JIRA, Confluence, Postman, Swagger, Visual Studio Code, IntelliJ IDEA

Other Skills: RESTful API Development, Microservices, MVC Architecture, Agile Methodologies, Unit Testing, Integration Testing, API Documentation, Cloud Computing, Web Development, System Design

Soft Skills: Communication, Teamwork, Problem Solving
